

## API reference

# Wearables Enum

The entry point for configuring and accessing the Wearables Device Access Toolkit.

Provides registration, device management, permissions, and session state functionality for interacting with AI glasses.

## Signature

```
enum Wearables
```

## Enumeration Constants

Member

## Properties

**shared**

The shared Device Access Toolkit instance.

## Functions

**configure ()**

Configures the Wearables Device Access Toolkit with settings from the app bundle.

This method must be called once before accessing [shared](#) or using any other Wearables Device Access Toolkit functionality. Subsequent calls will throw [WearablesError.alreadyConfigured](#).

Signature

Throws

Error if there was a problem configuring the Device Access Toolkit.
