

API reference 

SessionState Enum

Extends Int, Sendable

Represents the current state of a device session in the Wearables Device Access Toolkit.

Signature

```
enum SessionState: Int, Sendable
```

Enumeration Constants

Member	Description
stopped	The session is not active and not attempting to connect.
waitingForDevice	The session is waiting for a device to become available for connection.
running	The session is actively running and processing data from the device.
paused	The session is temporarily paused but maintains its connection.
unknown	The session state is not currently determinable.
